### *Listen to your body - Your best friend on Earth*

In 1987, LISE BOURBEAU began to share her ideas in book form as an adjunct to her workshops and seminars. The reception to her writing was overwhelming! Her simple, direct approach to subjects that, for generations, had been cloaked in confusion and misinterpretation, was welcomed and refreshing.

There is a widespread, pervasive need for balance in the world - on an individual level and on a global one. People are searching for happiness and inner peace. In a world of chaos and uncertainty, where do you find it? The answer lies within each of us.

LISE BOURBEAU takes you by the hand and, step by step, leads you beyond "packing your own parachute", to taking that step back into the clear, refreshing stream of life that flows from the Universal Source. She gives you the tools, not only to fix what is wrong in your life, but to build a solid foundation for your inner house - a foundation that extends as far as the global village. In her most recent book, "LISTEN TO YOUR BODY - YOUR BEST FRIEND ON EARTH" she helps you build an intimate, rewarding and powerful relationship with the most important person in your life - yourself.

"LISTEN TO YOUR BODY - YOUR BEST FRIEND ON EARTH" is a simple, comprehensive guide that will bring its readers closer to peace, love and harmony. It is a lifeline to the Divine.

With the participation of Jean-Pierre Gagnon, general manager of our company, we have adapted all the examples, also modified the cover and spacing for a more enjoyable experience for male readers.

## *Listen to your body, part 2*

Listen to your body - Part 2 is the long-awaited sequel to bestseller Listen to your body, your best friend on Earth (commonly referred to as that famous “little pink book” by her hundreds of thousands of readers) that reached heights of popularity in Quebec unequalled to this day.

Part 2 is the result of the author’s continuing research in the field of personal growth. In it, she shares new insights and guides the reader through the step-by-step application of valuable growth principles designed to lay the foundation on which to build a satisfying and successful life.

The book is comprised of twenty-one chapters, each closing with simple, practical exercises through which the reader is lead easily toward selfknowledge. Ms Bourbeau's fundamental premise is that understanding and knowledge are gained most effectively through personal experience.

In identifying and differentiating between the three primary states of “Having”, “Doing”, and “Being”, the reader achieves a simple clarity that allows a greater personal vision to emerge. From this new perspective, greater horizons are seen.

Once again, Lise Bourbeau, a prolific and beloved author, brings us a breath of fresh air in a user-friendly package.

## *Cancer - A book of hope*

What would you say to having a different view of cancer, that notorious word that has scared — and continues to scare — millions of people every year throughout the world? Why not consider this illness, even with all its devastating effects, as a friend rather than an enemy that one must struggle against?

The way you perceive this word is entirely your responsibility.

This book seeks to present a perception that is new and different from anything that has been written to date. Indeed, Lise Bourbeau uses an unprecedented approach that is based on the thousands of cancer stories she has heard over these last thirty years.

Through this book and the many experiences shared in it, Lise Bourbeau offers you only gentle methods that do not involve struggle, because fighting demands so much energy that it leaves none for anything else.

This book is intended for all those who are affected in one way or another by cancer today, including:

- those who have already had cancer;
- those who have cancer now;
- those who are worried about a friend, relative or family member who has cancer;
- therapists and caregivers who want access to tools for helping their clients or patients;
- and of course, all those who wish to prevent this illness.

Cancer is not an inevitable fate but rather a message aimed at helping you recover happiness and inner peace. Cancer seen this way becomes an opportunity for transformation and for loving yourself.

## *Love Love Love*

What do LOVE and ACCEPTANCE have in common? All of us experience a dozen situations on a daily basis; some are difficult to accept and that, unfortunately, creates conflict, discomfort, and a lack of satisfaction. This book makes the point on the fundamental principles of love and true acceptance.

With the help of real life experiences, the reader will be able to make the difference between ACCEPTANCE, SUBMISSION and UNDERSTANDING. By identifying himself with these experiences, he will recognize the different

facets of love (fraternal love, parental love, intimate love, love among friends, self-love, possessive love, passionate love, transitory love, unconditional love).

Through a variety of methods, the author guides us to accept sickness, death, old age, loss, decisions, physical appearance, weaknesses and difficult relationships... in short, LEARNING TO ACCEPT THE UNACCEPTABLE. The reader will follow the evolution of the characters and the extraordinary benefits that result from this evolution. This unique book will sensitize and support you throughout your life.

## *The WellBeing guide*

This book is a volume of reference for all those who are interested in personal growth and it answers innumerable questions that more and more of people are asking themselves.

It is also a priceless tool for all those who are counselors of some kind.

**Here's an example of one of the definitions:**

### **ACCUSATION:**

To accuse, we must decide that someone is guilty. An accusation consists of a value judgment passed on a person, a situation or on ourselves because we disagree about something or are reacting to what we consider right and wrong or correct and incorrect. An accusation is always preceded by criticism and judgment whether openly or in our thoughts; i.e., accusing ourselves of weakness, impatience, poverty, lack of selfconfidence, willpower, etc., or accusing others of traits which DISTURB us or affect us emotionally.

As soon as we accuse ourselves or others, we also experience EMOTION which depletes us of our energy. We accuse ourselves or others because we are deeply suffering and refusing to take RESPONSIBILITY. On the other hand, we suffer because we allow our EGO to control our life instead of LOVE. Our hidden fears fuel our accusations -- the fear of not being loved, accepted or validated. When we long to be loved, we don't love ourselves enough and hope others will do it for us.

How can we ever stop accusing? By becoming aware of our FEARS, CRITICISMS, BELIEFS and the deep DESIRES hidden below these fears. Next we must determine whether or not our beliefs are still useful and then act accordingly. If we continue to go against what is beneficial to us, we will keep on accusing ourselves. Realize also that the less we accuse ourselves, the less we will accuse others (and the less they will accuse us)...

## *A new collection!*

The publishing company established by Lise Bourbeau has added to her catalogue a collection of books written by the Listen to Your Body Method graduates.

## *Healed thanks to the love within me*

Follow these 3 steps to overcome any difficulty  
By Martine Beaulieu

If you are going through difficulties with your finances, relationships, health or something else in your life and you are wondering why you cannot resolve matters once and for all, this book proposes a new avenue – the Listen to Your Body Method (LYBM). It yields many discoveries and will enable you to be in contact with your own abilities to create and to transform your life with love in your environment.

Each difficulty represents an opportunity to gain insight into the unconscious inner chaos and lack of love of self that lurk within. When we shed light on the origin of the chaos and apply the steps taught to overcome the difficulty, something magical takes place.

***Life can appear complicated and difficult depending on how you look at it, but it can also enable you to learn more about yourself.***

## *Biography*

Martine Beaulieu worked in a hospital for fifteen years. A trainer and consultant with Listen to Your Body, she has also been trained in communication and leadership.

Having suffered from burnout for a few years, the author describes how she made it through her experience one step at a time thanks to the Listen to Your Body Method. She then noted that it was a gift that life had given her! Like any gift, she had to open it to see what was hiding inside.

At the heart of her suffering caused by the obstacle she believed was insurmountable, she discovered her strengths, including one of the greatest ones: being able to help others get through the challenges facing them.
